Item 4: Advisory Business

Firm Description

Aristide Partners LLC (“Aristide Partners”) was founded in 2018. Kevin Aristide is 100% owner.

Aristide Partners is a fee-only investment management firm. Aristide Partners does not sell annuities or insurance products.

Aristide Partners does not act as a custodian of Client assets.

An evaluation of each Client's initial situation is provided to the Client, often in the form of a net worth statement, risk analysis or similar document. Periodic reviews are also communicated to provide reminders of the specific courses of action that need to be taken. More frequent reviews occur but are not necessarily communicated to the Client unless immediate changes are recommended.

Other professionals (e.g., lawyers, accountants, tax preparers, insurance agents, etc.) are engaged directly by the Client on an as-needed basis and may charge fees of their own. Conflicts of interest will be disclosed to the Client in the event they should occur.

Types of Advisory Services

ASSET MANAGEMENT

Aristide Partners offers discretionary asset management services to advisory Clients. Aristide Partners will offer Clients ongoing asset management services through determining individual investment goals, time horizons, objectives, and risk tolerance. Investment strategies, investment selection, asset allocation, portfolio monitoring and the overall investment program will be based on the above factors. The Client will authorize Aristide Partners discretionary authority to execute selected investment program transactions as stated within the Investment Advisory Agreement.

FINANCIAL PLANNING AND CONSULTING

If financial planning services are applicable, a thorough review of all applicable topics including but not limited to, Wills, Estate Plans and Trusts, Investments, Taxes, Qualified Plans, Insurance, Retirement Income, Social Security, and College Planning will be reviewed. If a conflict of interest exists between the interests of Aristide Partners and the interests of the Client, the Client is under no obligation to act upon Aristide Partners’ recommendation. Financial planning services will be offered on a case by case basis. Depends on what the client is looking to achieve. If the Client elects to act on any of the recommendations, the Client is under no obligation to effect the transaction through Aristide Partners. Financial plans will be completed and delivered inside of 720 hours, or thirty (30) days contingent upon timely delivery of all required documentation.

Qualified Plans, Retirement Income:

Retirement planning - Making the most of your employer-sponsored retirement plans and IRAs. Determining how much you need to retire comfortably. Managing assets before and during retirement.

Wills, Estate Plans & Trusts:

Estate planning - Reviewing your wills and trusts. Preserving your estate for your intended heirs. Helping with beneficiary designations. Reducing exposure to estate taxes and probate costs. Coordinating with your tax and legal advisors.

Insurance:

Risk management - Reviewing existing insurance policies. Recommending policy changes when appropriate. Finding the best policy for your situation.

College Planning:

Education funding - Recommending investment and accumulation strategies to help you pay for your children's education.

Investments:

Investments - Determining your asset allocation needs. Helping you understand your risk tolerance. Recommending the appropriate investment vehicles to help you reach and exceed your goals.

Employee and executive benefits - Helping your business attract and retain qualified employees through benefit packages.

Social Security:

Review social security options and benefit to ensure the appropriate time to begin receiving benefits.

SEMINARS AND WORKSHOPS

Aristide Partners holds seminars and workshops to educate the public on different types of investments and the different services they offer. Seminars will be offered on a case-by-case basis at the advisor's discretion. The seminars are educational in nature and no specific investment or tax advice is given.

Client Tailored Services and Client Imposed Restrictions

The goals and objectives for each Client are documented in our Client files. Investment strategies are created that reflect the stated goals and objectives. Clients may impose restrictions on investing in certain securities or types of securities.

Agreements may not be assigned without written Client consent.

Wrap Fee Programs

Aristide Partners does not sponsor any wrap fee programs.

Client Assets under Management

As this is the initial filing of this brochure, Aristide Partners has no Client assets under management.

Item 5: Fees and Compensation

Method of Compensation and Fee Schedule

ASSET MANAGEMENT

Aristide Partners offers discretionary direct asset management services to advisory Clients. Aristide Partners charges an annual investment advisory fee based on the total assets under management as follows:

Assets Under Management	Annual Fee	Monthly Fee
Up to \$250,000	1.5%	.1250%
\$250,001 to \$1,000,000	1.00%	.0833%
\$1,000,001 to \$5,000,000	.8%	.0667%
Over \$5,000,001	.5%	.0583%

This is a tiered or breakpoint fee schedule, the entire portfolio is charged the same asset management fee. For example, a Client with \$750,000 under management would pay \$7,500 on an annual basis. $\$750,000 \times 1.00\% = \$7,500$.

The annual fee may be negotiable based upon certain criteria (e.g., historical relationship, type of assets, anticipated future earning capacity, anticipated future additional assets, dollar amounts of assets to be managed, related accounts, account composition, negotiations with Clients, etc.). Fees are billed monthly in arrears based on the amount of assets managed as of the close of business on the last business day of the previous month. If margin is utilized, the fees will be billed based on the net asset value of the account. Lower fees for comparable services may be available from other sources. Clients may terminate their account within five (5) business days of signing the Investment Advisory Agreement with no obligation and without penalty. Clients may terminate advisory services with thirty (30) days written notice. For accounts opened or closed mid-billing period, any unpaid earned fees will be due to Aristide Partners. Client shall be given thirty (30) days prior written notice of any increase in fees. Any increase in fees will be acknowledged in writing by both parties before any increase in said fees occurs.

For fees that are directly deducted from the account by the custodian:

- Aristide Partners will provide the Client with an invoice concurrent to instructing the custodian to deduct the fee stating the amount of the fee, the formula used to calculate the fee, the amount of assets under management the fee is based on and the time period covered by the fee;
- Aristide Partners will obtain written authorization signed by the Client allowing the fees to be deducted; and
- The Client will receive quarterly statements directly from the custodian which disclose the fees deducted.

FINANCIAL PLANNING

Aristide Partners charges a fixed fee for financial planning, according to the below chart:

Services	Fixed Fee	Estimated Hours
Wills, Estate Plans & Trusts	\$500	720
Insurance	\$500	720
College Planning	\$500	720
Investments	\$250	360
Social Security	\$250	360

Prior to the planning process the Client will be provided an estimated plan fee. Services are completed and delivered inside of thirty (30) days contingent upon timely delivery of all required documentation. Client may cancel within five (5) business days of signing Agreement with no obligation and without penalty. If the Client cancels after five (5) business days, any unearned fees will be refunded to the Client, or any unpaid earned fees will be due to Aristide Partners. Aristide Partners reserves the right to waive the fee should the Client implement the plan through Aristide Partners. Aristide Partners will send the Client a check when refunding a Client.

Fees for financial plans are billed 50% in advance with the balance due upon plan delivery.

SEMINARS AND WORKSHOPS

Aristide Partners holds seminars and workshops to educate the public on different types of investments and the different services they offer. The seminars are educational in nature and no specific investment or tax advice is given.

Aristide Partners does not charge a fee for attendance to these seminars.

Client Payment of Fees

Investment management fees are billed monthly in arrears, meaning that we invoice you after the billing period. Fees are usually deducted from a designated Client account to facilitate billing. The Client must consent in advance to direct debiting of their investment account.

Fees for financial plans are billed 50% in advance with the balance due upon plan delivery.

Aristide Partners, in its sole discretion, may waive its minimum fee and/or charge a lesser investment advisory fee based upon certain criteria (e.g., historical relationship, type of assets, anticipated future earning capacity, anticipated future additional assets, dollar amounts of assets to be managed, related accounts, account composition, negotiations with Clients, etc.).

Additional Client Fees Charged

Custodians may charge transaction fees on purchases or sales of certain mutual funds, equities, and exchange-traded funds. These charges may include mutual fund transaction fees, postage and handling, margin interest, and miscellaneous fees.

For more details on the brokerage practices, see Item 12 of this brochure.

Prepayment of Client Fees

Fees for financial plans are billed 50% in advance with the balance due upon plan delivery

External Compensation for the Sale of Securities to Clients

Aristide Partners does not receive any external compensation for the sale of securities to Clients, nor do any of the investment advisor representatives of Aristide Partners.

Item 6: Performance-Based Fees and Side-by-Side Management

Sharing of Capital Gains

Fees are not based on a share of the capital gains or capital appreciation of managed securities.

Aristide Partners does not use a performance-based fee structure because of the conflict of interest. Performance based compensation may create an incentive for Aristide Partners to recommend an investment that may carry a higher degree of risk to the Client.

Item 7: Types of Clients

Description

Aristide Partners generally provides investment advice to individuals, high net worth individuals, trusts, estates, or charitable organizations, corporations or business entities.

Client relationships vary in scope and length of service.

Account Minimums

Aristide Partners requires a minimum of \$5,000 to open an account. In certain instances, the minimum account size may be lowered or waived.

Item 8: Methods of Analysis, Investment Strategies and Risk of Loss

Methods of Analysis

Security analysis methods may include fundamental analysis, technical analysis, charting, and cyclical analysis. Investing in securities involves risk of loss that Clients should be prepared to bear. Past performance is not a guarantee of future returns.

Fundamental analysis concentrates on factors that determine a company's value and expected future earnings. This strategy would normally encourage equity purchases in stocks that are undervalued or priced below their perceived value. The risk assumed is that the market will fail to reach expectations of perceived value.

Technical analysis attempts to predict a future stock price or direction based on market trends. The assumption is that the market follows discernible patterns and if these patterns can be identified then a prediction can be made. The risk is that markets do not always follow patterns and relying solely on this method may not take into account new patterns that emerge over time.

Charting analysis strategy involves using and comparing various charts to predict long and short-term performance or market trends. The risk involved in using this method is that only past performance data is considered without using other methods to crosscheck data. Using charting analysis without other methods of analysis would be making the assumption that past performance will be indicative of future performance. This may not be the case.

Cyclical analysis assumes that the markets react in cyclical patterns which, once identified, can be leveraged to provide performance. The risks with this strategy are twofold: 1) the markets do not always repeat cyclical patterns; and 2) if too many investors begin to implement this strategy, then it changes the very cycles these investors are trying to exploit.

In developing a financial plan for a Client, Aristide Partners' analysis may include cash flow analysis, investment planning, risk management, tax planning and estate planning. Based on the information gathered, a detailed strategy is tailored to the Client's specific situation.

The main sources of information include financial newspapers and magazines, annual reports, prospectuses, and filings with the Securities and Exchange Commission.

Investment Strategy

The investment strategy for a specific Client is based upon the objectives stated by the Client during consultations. The Client may change these objectives at any time by providing written notice to Aristide Partners. Each Client executes a Client profile form or similar form that documents their objectives and their desired investment strategy.

Other strategies may include long-term purchases, short-term purchases, trading, and option writing (including covered options, uncovered options or spreading strategies).

Security Specific Material Risks

All investment programs have certain risks that are borne by the investor. Our investment approach constantly keeps the risk of loss in mind. Investors face the following investment risks and should discuss these risks with Aristide Partners:

- *Market Risk:* The prices of securities held by mutual funds in which Clients invest may decline in response to certain events taking place around the world, including those directly involving the companies whose securities are owned by a fund; conditions affecting the general economy; overall market changes; local, regional or global political, social or economic instability; and currency, interest rate and commodity price fluctuations. Investors should have a long-term perspective and be able to tolerate potentially sharp declines in market value.
- *Interest-rate Risk:* Fluctuations in interest rates may cause investment prices to fluctuate. For example, when interest rates rise, yields on existing bonds become less attractive, causing their market values to decline.
- *Inflation Risk:* When any type of inflation is present, a dollar today will buy more than a dollar next year, because purchasing power is eroding at the rate of inflation.
- *Currency Risk:* Overseas investments are subject to fluctuations in the value of the dollar against the currency of the investment's originating country. This is also referred to as exchange rate risk.
- *Reinvestment Risk:* This is the risk that future proceeds from investments may have to be reinvested at a potentially lower rate of return (i.e. interest rate). This primarily relates to fixed income securities.

- *Liquidity Risk:* Liquidity is the ability to readily convert an investment into cash. Generally, assets are more liquid if many traders are interested in a standardized product. For example, Treasury Bills are highly liquid, while real estate properties are not.
- *Management Risk:* The advisor's investment approach may fail to produce the intended results. If the advisor's assumptions regarding the performance of a specific asset class or fund are not realized in the expected time frame, the overall performance of the Client's portfolio may suffer.
- *Equity Risk:* Equity securities tend to be more volatile than other investment choices. The value of an individual mutual fund or ETF can be more volatile than the market as a whole. This volatility affects the value of the Client's overall portfolio. Small- and mid-cap companies are subject to additional risks. Smaller companies may experience greater volatility, higher failure rates, more limited markets, product lines, financial resources, and less management experience than larger companies. Smaller companies may also have a lower trading volume, which may disproportionately affect their market price, tending to make them fall more in response to selling pressure than is the case with larger companies.
- *Fixed Income Risk:* The issuer of a fixed income security may not be able to make interest and principal payments when due. Generally, the lower the credit rating of a security, the greater the risk that the issuer will default on its obligation. If a rating agency gives a debt security a lower rating, the value of the debt security will decline because investors will demand a higher rate of return. As nominal interest rates rise, the value of fixed income securities held by a fund is likely to decrease. A nominal interest rate is the sum of a real interest rate and an expected inflation rate.
- *Investment Companies Risk:* When a Client invests in open end mutual funds or ETFs, the Client indirectly bears their proportionate share of any fees and expenses payable directly by those funds. Therefore, the Client will incur higher expenses, which may be duplicative. In addition, the Client's overall portfolio may be affected by losses of an underlying fund and the level of risk arising from the investment practices of an underlying fund (such as the use of derivatives). ETFs are also subject to the following risks: (i) an ETF's shares may trade at a market price that is above or below their net asset value or (ii) trading of an ETF's shares may be halted if the listing exchange's officials deem such action appropriate, the shares are de-listed from the exchange, or the activation of market-wide "circuit breakers" (which are tied to large decreases in stock prices) halts stock trading generally. Adviser has no control over the risks taken by the underlying funds in which Client invests.
- *REIT Risk:* To the extent that a Client invests in REITs, it is subject to risks generally associated with investing in real estate, such as (i) possible declines in the value of real estate, (ii) adverse general and local economic conditions, (iii) possible lack of availability of mortgage funds, (iv) changes in interest rates, and (v) environmental problems. In addition, REITs are subject to certain other risks

- related specifically to their structure and focus such as: dependency upon management skills; limited diversification; the risks of locating and managing financing for projects; heavy cash flow dependency; possible default by borrowers; the costs and potential losses of self-liquidation of one or more holdings; the possibility of failing to maintain exemptions from securities registration; and, in many cases, relatively small market capitalization, which may result in less market liquidity and greater price volatility.
- *Foreign Securities Risk:* Funds in which Clients invest may invest in foreign securities. Foreign securities are subject to additional risks not typically associated with investments in domestic securities. These risks may include, among others, currency risk, country risks (political, diplomatic, regional conflicts, terrorism, war, social and economic instability, currency devaluations and policies that have the effect of limiting or restricting foreign investment or the movement of assets), different trading practices, less government supervision, less publicly available information, limited trading markets and greater volatility. To the extent that underlying funds invest in issuers located in emerging markets, the risk may be heightened by political changes, changes in taxation, or currency controls that could adversely affect the values of these investments. Emerging markets have been more volatile than the markets of developed countries with more mature economies.
 - *Long-term purchases:* Long-term investments are those vehicles purchased with the intension of being held for more than one year. Typically the expectation of the investment is to increase in value so that it can eventually be sold for a profit. In addition, there may be an expectation for the investment to provide income. One of the biggest risks associated with long-term investments is volatility, the fluctuations in the financial markets that can cause investments to lose value.
 - *Short-term purchases:* Short-term investments are typically held for one year or less. Generally there is not a high expectation for a return or an increase in value. Typically, short-term investments are purchased for the relatively greater degree of principal protection they are designed to provide. Short-term investment vehicles may be subject to purchasing power risk — the risk that your investment’s return will not keep up with inflation.
 - *Trading risk:* Investing involves risk, including possible loss of principal. There is no assurance that the investment objective of any fund or investment will be achieved.
 - *Options Trading:* The risks involved with trading options are that they are very time sensitive investments. An options contract is generally a few months. The buyer of an option could lose his or her entire investment even with a correct prediction about the direction and magnitude of a particular price change if the price change does not occur in the relevant time period (i.e., before the option expires). Additionally, options are less tangible than some other investments. An option is a “book-entry” only investment without a paper certificate of ownership.

- *Trading on Margin:* In a cash account, the risk is limited to the amount of money that has been invested. In a margin account, risk includes the amount of money invested plus the amount that has been loaned. As market conditions fluctuate, the value of marginable securities will also fluctuate, causing a change in the overall account balance and debt ratio. As a result, if the value of the securities held in a margin account depreciates, the Client will be required to deposit additional cash or make full payment of the margin loan to bring account back up to maintenance levels. Clients who cannot comply with such a margin call may be sold out or bought in by the brokerage firm.
- *Leveraged Risk:* The risks involved with using leverage may include compounding of returns (this works both ways – positive and negative), possible reset periods, volatility, use of derivatives, active trading and high expenses.
- *Equity Linked CD Risk:* Penalties may apply to early withdrawals. Fair market value of CD's when sold in the secondary market may be worth more or less than face value. May or may not be FDIC insured. Returns are not based solely on market returns, as there may be a maximum rate of interest the CD will earn. May be taxed on income earned, but interest isn't accrued (received) until the CD matures. Many CDs may have "call" features, allowing the bank to close the contract early with no penalty, paying back principle and any accrued interest.

The specific risks associated with financial planning include:

- Risk of Loss
 - Client fails to follow the recommendations of Aristide Partners resulting in loss
 - Client has changes in financial status or lifestyle and therefore plan recommendations are no longer valid.

Item 9: Disciplinary Information

Criminal or Civil Actions

Aristide Partners and its management have not been involved in any criminal or civil action.

Administrative Enforcement Proceedings

Aristide Partners and its management have not been involved in administrative enforcement proceedings.

Self-Regulatory Organization Enforcement Proceedings

Aristide Partners and its management have not been involved in legal or disciplinary events that are material to a Client's or prospective Client's evaluation of Aristide Partners or the integrity of its management.

Item 10: Other Financial Industry Activities and Affiliations

Broker-Dealer or Representative Registration

Aristide Partners is not registered as a broker-dealer and no affiliated representatives of Aristide Partners are registered representatives of a broker-dealer.

Futures or Commodity Registration

Neither Aristide Partners nor its affiliated representatives are registered or have an application pending to register as a futures commission merchant, commodity pool operator, or a commodity trading advisor.

Material Relationships Maintained by this Advisory Business and Conflicts of Interest

Aristide Partners does not have a material relationship to disclose.

Recommendations or Selections of Other Investment Advisors and Conflicts of Interest

Aristide Partners does not select or recommend other investment advisors.

Item 11: Code of Ethics, Participation or Interest in Client Transactions and Personal Trading

Code of Ethics Description

The affiliated persons (affiliated persons include employees and/or independent contractors) of Aristide Partners have committed to a Code of Ethics ("Code"). The purpose of our Code is to set forth standards of conduct expected of Aristide Partners affiliated persons and addresses conflicts that may arise. The Code defines acceptable behavior for affiliated persons of Aristide Partners. The Code reflects Aristide Partners and its supervised persons' responsibility to act in the best interest of their Client.

One area which the Code addresses is when affiliated persons buy or sell securities for their personal accounts and how to mitigate any conflict of interest with our Clients. We do not allow any affiliated persons to use non-public material information for their personal profit or to use internal research for their personal benefit in conflict with the benefit to our Clients.

Aristide Partners' policy prohibits any person from acting upon or otherwise misusing non-public or inside information. No advisory representative or other affiliated person, officer or director of Aristide Partners may recommend any transaction in a security or its derivative to advisory Clients or engage in personal securities transactions for a security or its derivatives if the advisory representative possesses material, non-public information regarding the security.

Aristide Partners' Code is based on the guiding principle that the interests of the Client are our top priority. Aristide Partners' officers, directors, advisors, and other affiliated persons have a fiduciary duty to our Clients and must diligently perform that duty to maintain the complete trust and confidence of our Clients. When a conflict arises, it is our obligation to put the Client's interests over the interests of either affiliated persons or the company.

The Code applies to "access" persons. "Access" persons are affiliated persons who have access to non-public information regarding any Clients' purchase or sale of securities, or non-public information regarding the portfolio holdings of any reportable fund, who are involved in making securities recommendations to Clients, or who have access to such recommendations that are non-public.

Aristide Partners will provide a copy of the Code of Ethics to any Client or prospective Client upon request.

Investment Recommendations Involving a Material Financial Interest and Conflict of Interest

Aristide Partners and its affiliated persons do not recommend to Clients securities in which we have a material financial interest.

Advisory Firm Purchase of Same Securities Recommended to Clients and Conflicts of Interest

Aristide Partners and its affiliated persons may buy or sell securities that are also held by Clients. In order to mitigate conflicts of interest such as trading ahead of Client transactions, affiliated persons are required to disclose all reportable securities transactions as well as provide Aristide Partners with copies of their brokerage statements.

The Chief Compliance Officer of Aristide Partners is Kevin Aristide. He reviews all trades of the affiliated persons each quarter. The personal trading reviews ensure that the personal trading of affiliated persons does not affect the markets and that Clients of the firm receive preferential treatment over associated persons' transactions.

Client Securities Recommendations or Trades and Concurrent Advisory Firm Securities Transactions and Conflicts of Interest

Aristide Partners does maintain a firm proprietary trading account. Aristide Partners does not have a material financial interest in any securities being recommended and therefore no conflicts of interest exist. However, affiliated persons may buy or sell securities at the same time they buy or sell securities for Clients. In order to mitigate conflicts of interest such as front running, affiliated persons are required to disclose all reportable securities transactions as well as provide Aristide Partners with copies of their brokerage statements.

The Chief Compliance Officer of Aristide Partners is Kevin Aristide. He reviews all employee trades each quarter. The personal trading reviews ensure that the personal trading of affiliated persons does not affect the markets and that Clients of the firm receive preferential treatment over associated persons' transactions.

Item 12: Brokerage Practices

Factors Used to Select Broker-Dealers for Client Transactions

Aristide Partners may recommend the use of a particular broker-dealer or may utilize a broker-dealer of the Client's choosing. Aristide Partners will select appropriate brokers based on a number of factors including but not limited to their relatively low transaction fees and reporting ability. Aristide Partners relies on its broker to provide its execution services at the best prices available. Lower fees for comparable services may be available from other sources. Clients pay for any and all custodial fees in addition to the advisory fee charged by Aristide Partners.

- *Directed Brokerage*
Aristide Partners does not allow directed brokerage accounts.
- *Best Execution*
Investment advisors who manage or supervise Client portfolios have a fiduciary obligation of best execution. The determination of what may constitute best execution and price in the execution of a securities transaction by a broker involves a

number of considerations and is subjective. Factors affecting brokerage selection include the overall direct net economic result to the portfolios, the efficiency with which the transaction is effected, the ability to effect the transaction where a large block is involved, the operational facilities of the broker-dealer, the value of an ongoing relationship with such broker and the financial strength and stability of the broker. The firm does not receive any portion of the trading fees.

- *Soft Dollar Arrangements*

The Securities and Exchange Commission defines soft dollar practices as arrangement under which products or services other than execution services are obtained by Aristide Partners from or through a broker-dealer in exchange for directing Client transactions to the broker-dealer. As permitted by Section 28(e) of the Securities Exchange Act of 1934, Aristide Partners receives economic benefits as a result of commissions generated from securities transactions by the broker-dealer from the accounts of Aristide Partners. These benefits include both proprietary research from the broker and other research written by third parties.

A conflict of interest exists when Aristide Partners receives soft dollars. This conflict is mitigated by the fact that Aristide Partners has a fiduciary responsibility to act in the best interest of its Clients and the services received are beneficial to all Clients.

Aristide Partners utilizes the services of custodial broker dealers. Economic benefits are received by Aristide Partners which would not be received if Aristide Partners did not give investment advice to Clients. These benefits include: A dedicated trading desk, a dedicated service group and an account services manager dedicated to Aristide Partners' accounts, ability to conduct "block" Client trades, electronic download of trades, balances and positions, duplicate and batched Client statements, and the ability to have advisory fees directly deducted from Client accounts.

Aggregating Securities Transactions for Client Accounts

Aristide Partners is authorized in its discretion to aggregate purchases and sales and other transactions made for the account with purchases and sales and transactions in the same securities for other Clients of Aristide Partners. All Clients participating in the aggregated order shall receive an average share price with all other transaction costs shared on a pro-rated basis.

Item 13: Review of Accounts

Schedule for Periodic Review of Client Accounts or Financial Plans and Advisory Persons Involved

Account reviews are performed quarterly by the Chief Compliance Officer of Aristide Partners. Account reviews are performed more frequently when market conditions dictate. Financial plans generated are updated as requested by the Client and pursuant to a new or amended agreement, Aristide Partners suggests updating at least annually. Performance reports will be provided by Aristide Partners at least quarterly to Clients with assets under management, exclusive of Assets Held Away.

Review of Client Accounts on Non-Periodic Basis

Other conditions that may trigger a review of Clients' accounts are changes in the tax laws, new investment information, and changes in a Client's own situation.

Content of Client Provided Reports and Frequency

Clients receive written account statements no less than monthly for managed accounts. Account statements are issued by Aristide Partners' custodian. Client receives confirmations of each transaction in account from Custodian and an additional statement during any month in which a transaction occurs.

Item 14: Client Referrals and Other Compensation

Economic Benefits Provided to the Advisory Firm from External Sources and Conflicts of Interest

Aristide Partners does not receive any economic benefits from external sources.

Advisory Firm Payments for Client Referrals

Aristide Partners does not compensate for Client referrals.

Item 15: Custody

Account Statements

All assets are held at qualified custodians, which means the custodians provide account statements directly to Clients at their address of record at least quarterly. Clients are urged to compare the account statements received directly from their custodians to any documentation or reports prepared by Aristide Partners.

Aristide Partners is deemed to have constructive custody solely because advisory fees are directly deducted from Client's accounts by the custodian on behalf of Aristide Partners.

Item 16: Investment Discretion

Discretionary Authority for Trading

Aristide Partners requires discretionary authority to manage securities accounts on behalf of Clients. Aristide Partners has the authority to determine, without obtaining specific Client consent, the securities to be bought or sold, and the amount of the securities to be bought or sold.

Aristide Partners allows Client's to place certain restrictions, as outlined in the Client's Investment Policy Statement or similar document. Such restrictions could include only allowing purchases of socially conscious investments. These restrictions must be provided to Aristide Partners in writing.

The Client approves the custodian to be used and the commission rates paid to the custodian. Aristide Partners does not receive any portion of the transaction fees or commissions paid by the Client to the custodian.

Item 17: Voting Client Securities

Proxy Votes

Aristide Partners does not vote proxies on securities. Clients are expected to vote their own proxies. The Client will receive their proxies directly from the custodian of their account or from a transfer agent.

When assistance on voting proxies is requested, Aristide Partners will provide recommendations to the Client. If a conflict of interest exists, it will be disclosed to the Client.

Item 18: Financial Information

Balance Sheet

A balance sheet is not required to be provided because Aristide Partners does not serve as a custodian for Client funds or securities and Aristide Partners does not require prepayment of fees of more than \$500 per Client and six months or more in advance.

Financial Conditions Reasonably Likely to Impair Advisory Firm's Ability to Meet Commitments to Clients

Aristide Partners has no condition that is reasonably likely to impair our ability to meet contractual commitments to our Clients.

Bankruptcy Petitions during the Past Ten Years

Neither Aristide Partners nor its management has had any bankruptcy petitions in the last ten years.

Item 19: Requirements for State Registered Advisors
